

Post this emergency procedure where it can easily be seen and followed under emergency conditions.

Laser emergency procedure

Clearly label the emergency laser power interrupt device so personnel can locate it under emergency conditions.

For any emergency requiring fire, ambulance, or police assistance, call 5-5560.

Promptly turn the laser off in the event of an accident involving the laser.

Turn the laser off in the event of a building evacuation.

Report any suspected or known accident involving a laser to the laser permit holder, who is responsible for notifying the Laser Safety Officer of the accident in writing.
