## Laboratory Safety Training Review

- ☐ Register for required general laboratory safety training.  
All personnel working within a research laboratory must attend an EH&S general lab safety course (LAB-102) related to their area of research (chemical, biological, or physical sciences). See EH&S training schedule ([http://www.uos.harvard.edu/trainingv2/course\\_schedulex.jsp](http://www.uos.harvard.edu/trainingv2/course_schedulex.jsp)) for dates and times.
- ☐ Determine and register for additional safety training. Review research program with PI and/or local EH&S Health and Safety Officer to determine if any additional safety training is required. For example biosafety/blood-borne pathogens, radiation safety, laser safety, etc. List additional training requirements below:
